2018 SUMMER ENRICHMENT PROGRAM

Winchester's own teachers and staff have submitted course proposals in subject areas they are passionate about. We hope that many children will share their interest and sign up this summer. Children will benefit from small classes with expert teachers! Our goal is to reach out to all learners - to those who are advanced in a key area and want to expand their minds, to those who have a special interest they are excited about, and to those who could use some reinforcement in a specific academic area. Our hope is to expand our student's love of learning.

****Limited number of scholarships available on a first come basis. Email jcallahan@winchesterps.org for details****

Please contact our Summer Enrichment Coordinator, Jessica Callahan, if you have any questions:

jcallahan@winchesterps.org

Classes by week :

(please click on the tabs above for complete dates and descriptions):

Week 1 July 9-13

Little Newtons (prek-1)

Yogart (prek-2)

Summer Scrapbooking (K-2:AM) (3-6:PM)

Reading the write way (Grades 1-6)
(meets from July 9-August 2)

Puppets Make and take (Grades 2-3)

Clay Studio (Grades 2-6)

Comics and Cartoons (Grades3-8)

Boot Camp for Kids (Grades 3-5)

Cook, Build, and Explore Math (Grade 4)
Tuesdays and Thursdays July 10-August 9th)

Movie Making (Grades 3-5)

Baking and board games (Grades 6-8)

Boost Your SAT Math Score! (Grades 7-12)
Transition to Winchester High School (Grade
9)

Anxiety Management (Grade 9)

Week 2 July 16-20

Little Newtons (prek-1)

Yogart (prek-2)

Summer Scrapbooking (K-2:AM) (3-6:PM)

Crafts and more (Grades 2-6)

Soccer and read alouds (Grades 2-4) (3-4)

HEART (exercise and art) (Grades 2-6)

Games Galore (Grades 3-4)

Boot Camp for Kids (Grades 3-5)

STEM Imagination Challenge (Grades 3-5)

Comics and Cartoons (Grades 3-8)

iMovie and books! (Grades 3-5)

Baking and board games (Grades 6-8)

Boost Your SAT Math Score! (Grades 7-12)

Prek- Grade 5

****Student's grade level in September 2018****

****Locations are tentative and subject to change and/or will be announced shortly ****

Little Newtons: STEAM fun!

Laurin Holmes & Shauna Dellaia

Session 1: July 9-12
 Session 2: July 16-19
 Session 3: July 23-26
 Session 4: July 30-August 2

Mon-Thurs
 9-12

Location: TBD

PreK (ages 4-5)- Grade 1

\$175 (per session)

We are back for another summer of helping your little "Sir Isaac Newtons" learn the beginning stages of STEAM (science, technology, engineering, art & math) and learning hands on. This summer enrichment class will engage your preschooler, Kindergarten or 1st grade student in engineering structures, catapults, and basic kinetics. Each day will include time in the playground and an appropriate STEAM book to end the day's festivities. Please pack a snack and drink! Please note: The activities performed in a session do repeat from session to session.

YogArt

Deborah White and Anne Daley

Session 1: July 9-12
 Session 2: July 16-19
 Session 3: July 23-26
 Session 4: July 30- August 2
 Session 5: August 6- August 9

Mon-Thurs
 9-12

Location: TBD

PreK (ages 4-5)- Grade 2

\$175 (Per session)

Each week focuses on a DIFFERENT "theme," mixing a variety of fun art projects with yoga exercises targeting strength, flexibility and coordination. Children will learn to focus, calm and center themselves through breathing and visualization exercises. They will learn respect for themselves and others while practicing poses (individual, partner and group) and enjoying fun yoga games, music and storytelling. Opportunities to integrate self-expression and reflection will be built into art projects throughout!

Reading the Write Way

Kathy Farelli

July 9 - August 2

Mon-Thurs

students entering grades 2, 4, 6 - 8:00 - 9:00

students entering grades 1, 3, 5 - 9:15 - 10:15

Location: TBD

Grades 1-6

\$320

The Reading the Write Way program is designed to foster love of reading and writing and maintain literacy skills through the summer months for students entering grades 1 through 6. Students will be learning in a small group setting which allows instruction based on the needs of the individual children. For one hour each day, they will receive practice and support in the areas of reading fluency, phonics, comprehension, vocabulary, and writing. If you have questions about this program and whether it might benefit your child, please contact Kathy Farelli at kfarelli@winchesterps.org.

World Travelers: Games and Crafts from Around the World

Jessica Callahan

Session 1: July 23-27

Session 2 : August 6-10

Mon-Fri

9:30-2:30

Location: TBD

Grades k-3

\$250

Get ready to travel around the world in 5 days! Did you know that marbles and tag are played by children all over the world? We will explore these games and many more. Each day we will travel to a new continent. We will do research, read folktales, play games, and make a craft from the

continent we are studying. Pack a lunch and sunscreen since we will be spending some time outside everyday.

Summer Scrapbooking

Lydia Connell

<p>Session 1 :July 9- July 13 9am -12pm (K-3rd grade) 12-3 (4-6th grade) Session 2: July 16-July 20 (K-3rd grade) 12-3 (4-6th grade) Session 3: July 23- July 27 (k-3rd grade) 12-3 (4-6th grade) Session 4: July 30- Aug 3 (K-3rd grade) 12- 3 (4-6th grade)</p>	<p>Mon-Fri 9am -12pm (K-3rd grade) 12-3 (4-6th grade)</p> <p>Location: TBD</p>
--	---

<p>Grades K-3rd grade in the morning 4-6th grade in the afternoon</p>	<p>\$175</p>
--	--------------

Make your very own scrapbook to document your summer, favorite memories, trips or vacations, and much more! Students will learn different scrapbook techniques to create unique keepsakes. No experience is required. Come with some pictures, souvenirs, and creative ideas!

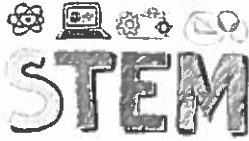

Crafts and More

Caitlin Fay

<p>Session 1: July 16th-20th Session 2: July 23rd- July 27th Session 3: July 30th - August 3rd</p>	<p>Mon-Fri 9:00-12:00</p> <p>Location: TBD</p>
--	---

<p>Grades 2-6</p>	<p>\$200</p>
-------------------	--------------

Crafts and more will be a fun and interactive class where we will create a different art project each day. From button art and painting, to slime creations and planting, the days will be filled with different types of crafts and games!

STEM Fun For Elementary

Melissa Moore, Darlene Welch

July 30-August 3

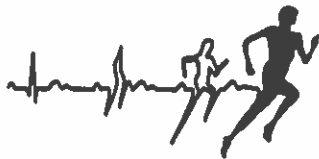

Mon-Fri
9:00- 12:00

Location: TBD

Grades 2-4

\$200

A fun, hands-on class for students who are interested in science, technology, engineering and mathematics! Create and build different experiments using materials provided.

Heart

Andrea Cogan and Sue Costello

July 16 - July 20

Mon-Fri
9:00- 12:00

Location: TBD

Grades 2-6

\$200

Join Ms. Costello and Ms. Cogan at Lincoln School for an awesome active workout using your body and the paint brush. Get your artistic groove on with a mix of time in the art studio and doing physical activity. Bring a friend!

Read it -Make it!

Ms. Cogan and Mrs. Garciano

July 30-August 3

Mon-Fri
9am-12pm

Location: TBD

Grades 2-6

\$200

A cooking class for students who like to read AND cook.

Join Mrs. Cogan and Ms Garciano and we will read stories about foods and crafts, then make the recipe or craft. Books like Pete's a Pizza or If You Give a Pig a Pancake. Grab a friend or a sibling and join the fun.

Soccer and Read Alouds

Gillian Hignett

July 16-July 20th

Mon-Fri

Grades 2-3: 9am-12pm
Grades 4-5: 12:30pm-3:30pm

Location: TBD

Grades 2-3 Mornings
Grades 3-4 Afternoons

\$150

Come learn and play soccer! We will learn some basic skills and play fun soccer games! We will end each session with a read aloud and/or activity! Please bring your own soccer ball, water and a snack.

ArtJet: Summer Art Studio

Miss Sue Costello

Session 1: July 30th-August 3rd
Session 2: August 6th-August 10th

Mon-Fri
9-12

Location: Lincoln

Grades 2-6

\$180 (Per session)

ArtJet is for Winchester Public School artists (going into grades 2-6) of all abilities who have the desire to get their feet-off-the-ground and expand their knowledge in the visual arts. Through the daily art classes the students will "jet-set" their way through 5 destinations around the globe as they make art and connections between the work they create and their world around them. Miss Costello transforms the art room with artifacts, resources, and travel video of the daily destination to inspire young artists. Locations this Summer may include: China, India, France, Italy, Greece, Egypt, Mexico and Japan. The students will help design the journey.

ArtJet is a morning course from 9-12 noon and not be providing any food service. ArtJet students need only to bring a snack & beverage for a mid-morning break. ArtJet will supply the rest and help your young artist create, pack and fill their own designer luggage with souvenirs they create. Get set to take-off for a week of art-making! Limited to 20 artists.

Clay Studio

Miss Sue Costello

July 9-13

Mon-Fri
9am-11am
Location: TBD

Grades 2-6

\$125

Join Miss Costello for a 5 day "Clay Studio" Summer session in the Lincoln Art room. This is new, art Summer Art enrichment is for WPS artists to that want to have more experience creating with clay. Clay sculpture is typically offered during the general art curriculum just once or twice a year. However, your child can have a Clay Studio week to further explore clay handbuilding techniques. All clay pieces will be fired (some painted with clay glazes & water-based paints). *Due to clay drying firing time not all work can go home right away. Miss Costello is available throughout the Summer and in September for pick up. **Please bring a snack.

Boot Camp for Kids

Sarah Langley

Session 1: July 10-13
Session 2: July 17-20

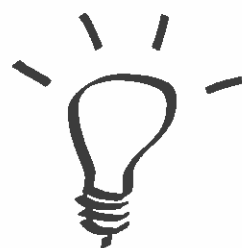

Tues-Fri
8am- 11am

Location: TBD

Grades 3-5

\$125

Like to "play Army" or are interested in joining the military? Come learn real Army exercises and drills (marching/saluting). Learn the Army phonetic alphabet we will use on our walkie-talkies! To end our day we'll put water guns into our play!

STEM Imagination Challenge

Celeste McGhee

Session 1 : July 16-19
Session 2: July 23-26
Session 3: August 6- August 9

Mon-Thurs
9:30-2:30

Location: TBD

Grades 3-5

\$250 (per session)

Come blow off some STEAM this summer in an Arts and STEM, project-based course inspired by the Destination Imagination organization that encourages kids to have fun, take risks, focus and frame challenges while incorporating science, technology, engineering, and mathematics, plus the arts = STEAM.

Kids will build on their strengths while learning patience, flexibility, persistence, ethics, respect for others and their ideas, project management, and rapid prototyping.

Comics and Cartoons

Paul Hackett

Session 1: July 9-13
Session 2: July 16-20

Mon-Fri
9-12
Location: TBD

Grades 3rd-8th

\$200 (per session)

Create your own comic strip with invented characters inspired by your favorite comics and cartoons. Develop background spaces for your stories, animate objects, create motion, and learn how to draw different facial expressions.

Secret History of Comic Books

Thomas Serena

Session 1: July 23rd - 27th
Session 2: July 30- August 3

Mon-Fri
9-12
Location: TBD

Grades 5th-12th

\$200 (per session)

Ever wonder where Batman Superman or Even Iron Man and Captain America come from? Ever wonder about time travel with the doctor or being Captain Kirk on the USS Star Ship Enterprise or how many planets there really are in Star Wars? How do they

do it? Well in the Secret History of comic books we will go over that and more with an introduction to DC comics and Marvel and all the other comic companies and big movie productions. Also we learn a little bit about what was going on in the world around that time period. So if you want to come and geek out and learn about the making of these amazing adventures come join me Tom Serena as your tour guide to the world of the Secret History Of Comic Books...

Movie Making

Phil Belliniot

Session 1: July 9 - July 13
 Session 2: July 23 -July 27
 Session 3: August 6-10

Mon-Fri
 8:30-12:00

Location: TBD

Grades 3-5

\$250

Movie Making is fun, but it is one of the more difficult extended learning programs. The first few sessions are spent developing a story and writing the script for a group project. During the remaining sessions, students will experience playing the roles of actor, director, camera operator, and boom pole operator (sound). Families, friends, and teachers will be invited to a movie premiere at the end of the program.

Games Galore

Paul DeBenedictis and Julie McElaney

July 16-20

Mon-Fri
 9am-1pm
 Location: TBD

Grades 3rd-4th

\$250

"Board" with the same old card games? "Card" with the same old board games? Wait. What?... Then we have the perfect camp for you! Join Paul DeBenedictis and Julie McElaney as they encourage the development of logic, reasoning and fair play

through card games and board games! New games will be presented each day. Students will learn a wide range of games that they will carry with them and enjoy passing on to family and friends. Games can help teach mathematics, quick thinking, strategy, memory, and gracious winning and losing. Best of all, a deck of cards or board game brings people together to cultivate social skills and small group play in a fun setting. Be sure to bring a light lunch or hearty snack!

Make an iMovie of your favorite book!

Jan Bernardi

Session 1: July 16-20

Mon-Fri
8:30am-11:30am

Location: TBD

Grades 3-5

\$200

Movie making with iMovie! Learn how to use iMovie and Green Screen to share your favorite books with your friends and family. Each director will choose their favorite book and create a mind blowing movie trailer to showcase their work!

Cook, Build, and Explore Math

Kyra Johnson and Doria Habib

July 10th , July 12, July 17, July 19, July 23,
July 26th, July 31st, August 2, August 7,
August 9th

Tuesdays and Thursdays

2pm-3:30pm

Location: TBD

Entering 4th grade

\$250

We will be exploring math through fun, hands-on activities and outdoor games. This class will focus on refreshing and reviewing foundational 3rd grade skills that will be

needed for incoming 4th graders. We will learn about math using real life situations and environments (examples: cooking, outdoor games, structure building, and STEM challenges). Topics covered include fractions, measurement, area and perimeter, and multiplication.
