

**DIFFERENTIATION GOAL -**  
 Through the 2013-2016 school years the district will increase the use of quantitative and qualitative data to drive differentiated instruction and assessment in the classroom in order to meet the needs of all learners

EVALUATION GOAL = Throughout the 2013-2016 school years, the district will implement and revise the evaluation process based on state mandates and district needs. Expectations, calibration, risk-taking, and growth will be measured quantitatively and qualitatively each year

TECHNOLOGY GOAL = By 2016, the district will have in place the infrastructure and professional development that will allow for maximum efficiency and effectiveness as measured quantitatively and qualitatively
